

REFLECTIVE TAPE		Backing		Domestic or Industrial wash
XM-6009		Sew-On		

Description

Silver reflective tape with superior retro-reflective performance is best suited for EN 20471 vests, jackets, pants etc. It is made with polyester-spandex backing. Maximum retroreflection is guaranteed even after numerous wash cycles. High grade micro-beads provides extra visibility of workers. Available in 1", 2", 3", 4" width.

Product Construction

This Silver Hi-Vis Reflective Tape, engineered with a blend of spandex and polyester, offers unparalleled flexibility and visibility for both workwear and sportswear. This highly durable, sew-on tape is designed to maintain its reflective quality and elasticity, ensuring wearers are visible in low-light conditions while providing ease of movement.

Product Detailed Information

Material	85% Polyester, 15% Spandex
Finish	-
Colour	Silver
Industrial wash	-
Roll, Width	50 mm
Roll, Length	50 meters
Roll, Weight	1.6 kgs

Care Instructions

	Wash	Machine Wash Hot, 60°C
	Bleach	Do not bleach
	Dry	Tumble Dry Low
	Dry-clean	Dry clean, PCE (Petroleum Solvent) only
